

I would like to state my objection to Low Power FM expanding its service to allow LPFM stations to take priority over current FM translator service. K-LOVE is a station I listen to everyday. K-LOVE serves my community by providing whole-some, family value listening in a community that has few other options. I believe that the positive and encouraging impact K-LOVE has on my life, my family's life, and my community is immeasurable. Please, do not displace it by expanding the LPFM service.
